

D'ed

indeed
not dead
deify if-y upside down descender
fuddy duddy
detail in the don't moment
dear belovedly downtrodden
demeanor of a rotten desire
gaudy undeserving detox in the windy dementia of needy
odious howdy-doodo
depression hard-pressed
cruddy creed and demon feed
among the hurdy-gurdy dependency of wordy
denial nobody
indeed

somebody deviated
decided we did
we would design and develop greedy delineation
independently defiled desire candy
deep principle destroyer
heady teddy bear dandy and randy
demanding detour
muddled misdirector deserving
goody goody deterrent
brandywine hot toddy
disabling speedy default
to bandy about the defense at the ready and devour
developing nations and gradations
my buddy denies it
everybody deals in the seedy and beady-eyed mead
that welcomes card-players throwing down
the birdy music that anybody deems sufficient
study the weed and feel
engraved
the downward spindle
