

H Itch

i am fond of you honest
so bold in this hot earth silent
symmetrical chuff
harboring hyper-H hearth
which changes perchance
son of a bitch
my child
with a name like that
i huff and i puff
up up and away
goes great with other letters i
watch who huh
fear of H major
chum high-strung witch in a hickory hollow
in stitches
hitch-up and wild pitchout
hubris another crutch for the other conso-
gnats nations
poets have been trying
to rhyme orange they do funny things
however handsome host
waste in the shattered chase of crash-course
his and hers
hue companion letter
hee-haw
nodding chump in a chthonic H.S.
splashing
H₂O among the plush slush of hard-up HQ
honing
in the name of the further
the shun and the hokey pokey
that's what it's all about
holy moly starlight hindsight
first starry night i heed tonight
hallelujah
hollow be thy name
